

Changing max temp on you swim spa

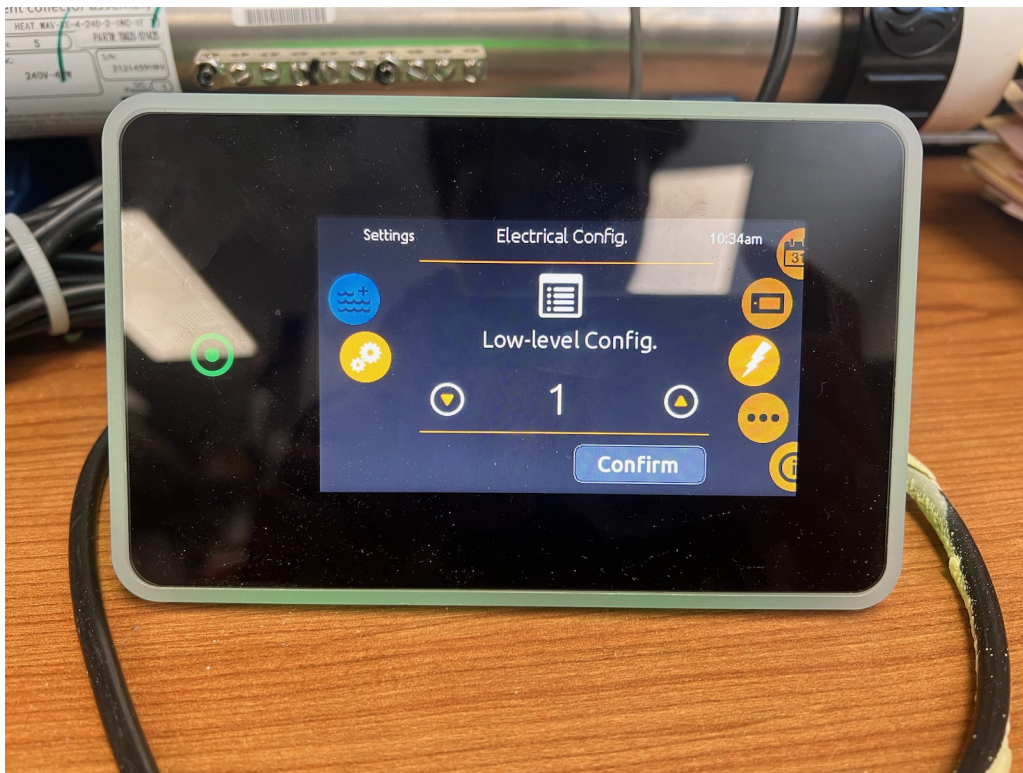

1. Select settings (double gear icon on left side)
2. Then electrical config (lightning bolt on right side)

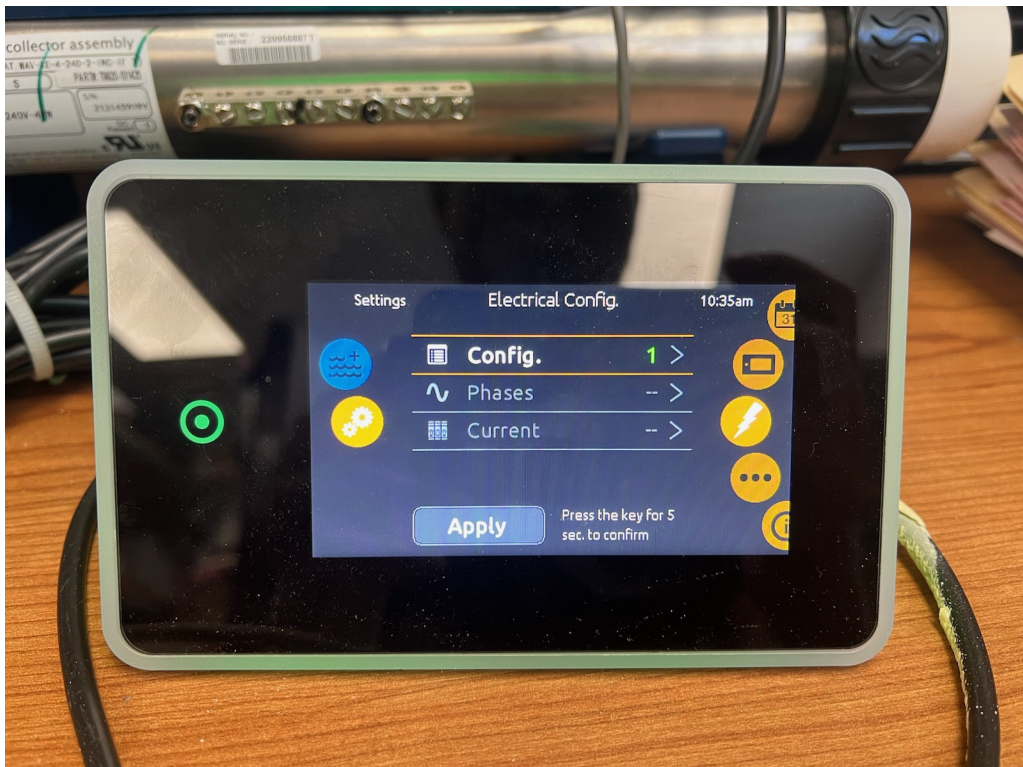

3. Select Config

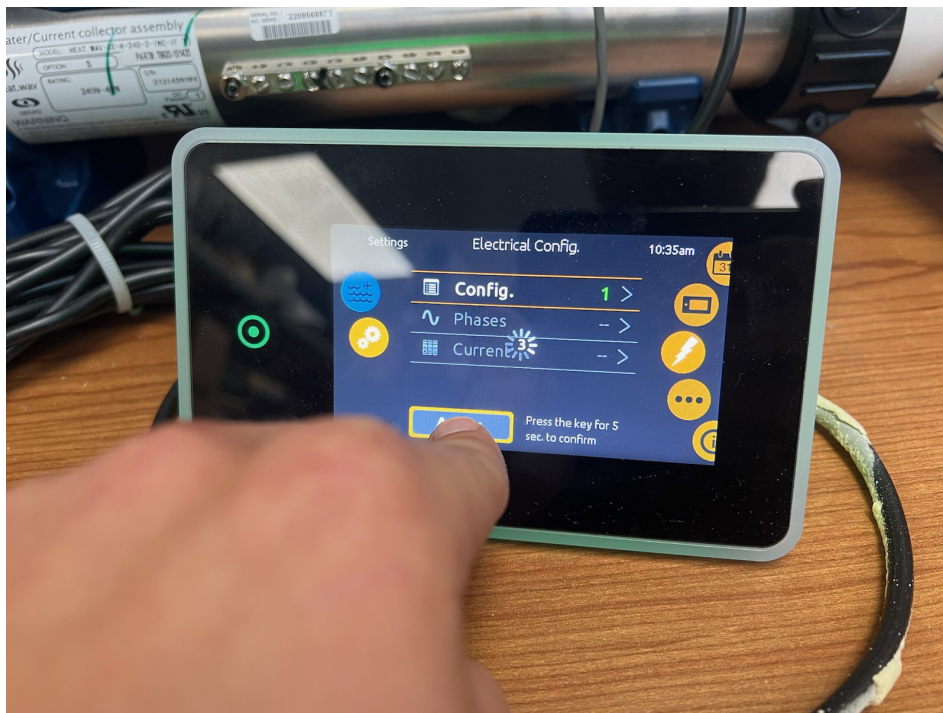

4. Use the arrow buttons to change number to 1

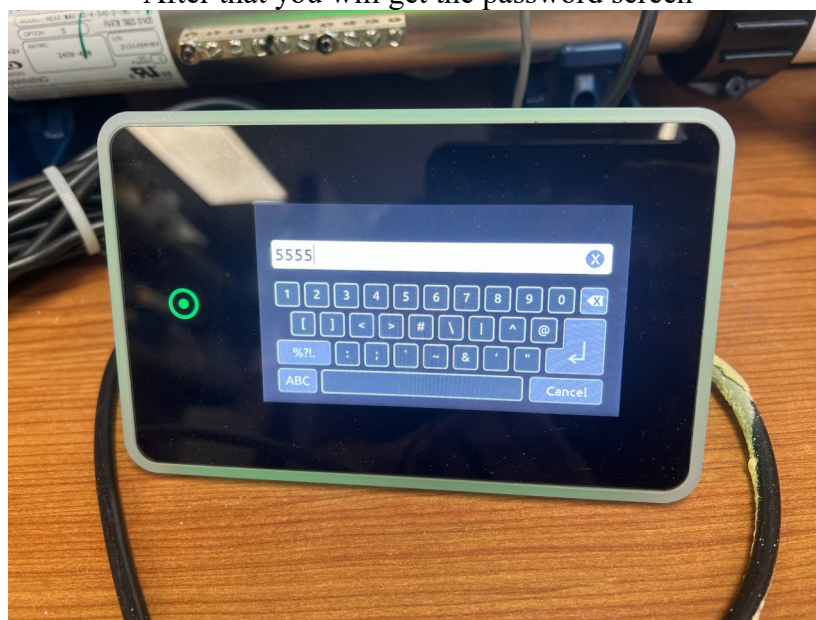

5. Press Confirm

6. Press and hold the apply key for 5 seconds.

After that you will get the password screen

7. Enter the password 5555 then press the enter button.
The spa will restart it's self.

After the restart it will ask to select dealer or generic icons, Select Dealer icons.
Now your spa will be able to be set to 104 degrees.

Enjoy your new spa!!

Thanks
